THE WRITERS OF TODAY PRESENT

ALAGAPPA WAVES

"NEVER STOP UNTIL YOU SURPASS YOUR GOALS"

PUBLISHED BY : KARAIKUDI ALAGAPPA GROUP OF EDUCATIONAL
INSTITUTIONS

Dear readers,

We are proud to present our second edition of e-magazine Alagappa waves. This e-magazine crisscrosses mainly on agriculture. Our covet is to thank each and every members of the college and school for their active help. Throughout we have had the benefit of their criticism and suggestions. We should realize the fact that all the students don't have the same talent and so each one will achieve success differently, likewise our students have been achieved in various fields. We would like to thank the management as this would not have been possible without their support and guidance. We apologize for our shortcomings hope you will cherish all of our efforts.

Happy reading!

*Yours lovingly,
E- Magazine team*

REDEFINE THE IMPOSSIBLE

Opportunities are not decided by the destiny. We need strong determination and will power to succeed in life. If you are really passionate towards something, you should not leave your hope. When your doors are closed don't worry about it, because your intelligence is the key to open that. A strong example for this was given by our Alagappa Chettiar.

Due to his ill health, he couldn't board the ship to learn about business in Malaya. Because of this he wanted to join in presidency College. For this he had to get permission from his father and during this process admission process was completed. But without losing hope, he approached the college after getting his father's approval. He went and met the Principal of Presidency College in Chennai for an intermediate course. Unfortunately all the 40 seats were filled and there was no vacancy for the course. To prove this the Principal showed the admission list from number 1 to 40. Seeing this our Alagappa Chettiar immediately responded with great intelligence and replied sir, "0 is still available and you can accommodate me in that number". Stunned with knowledge and presence of mind the Principal changed his mind and admitted him immediately. When you are focussed, whatever the hurdles come you will definitely overthrow all that and you will find a place for you in that. To quench his thirst of knowledge, he applied his knowledge and opened the lock with great ease. Instead of complaining about our destiny, we can use our mind and settle things easily. This is the lesson given to us by our Alagappa Chettiar.

”

AGRICULTURE

Is the most healthful, most
useful and most noble
EMPLOYMENT of MAN.

- *George Washington*

“

AGRICULTURE

Scope, objective and dedication of Agricultural Education in India

Agriculture can be defined as the art, science, and business of cultivating crops and livestock for economic purposes. At certain stages of human development, agriculture is used to be the only known means of living.

It is derived from the Latin terms *ager* referring to the soil and *cultura* to its cultivation. Agriculture is a broad term encompassing all aspects of crop production, horticulture, livestock farming, forestry etc.

Agriculture is a production plant where the free gifts of nature such as land, water, air, soil energy, etc. are used as inputs and then converted into a single primary unit that is crop plants and their yield which are indispensable for human beings. Those primary units are consumed by animals and are converted into secondary units like milk, meat, eggs, wool, honey, silk, etc.

PROVIDES EMPLOYMENT

Agriculture has the contribution of 16% in the gross domestic product (GDP) of the country. The agricultural sector also provides livelihood to two-thirds of the population. The agricultural sector is responsible for the employment of 58% of country's workforce.

SIGNIFICANT CONTRIBUTION IN COUNTRIES EXPORT

This sector accounts for about 15% of the total export earnings and provides raw material to almost all the industries i.e. textiles, silk, rice, rubber, paper, flour mills, milk products industries.

AN IMPORTANT SOURCE OF RESOURCE MOBILIZATION

As the people in rural areas are not very rich, it proves as one of the biggest markets for low-priced consumer goods.

BETTER THE AGRICULTURE BETTER THE FOOD SECURITY IN THE COUNTRY

If the agricultural sector of a country is strong, it acts as a wall in maintaining food security and in the process, national security as well.

IMPORTANT ALLIED SECTORS

There are many allied sectors of agriculture like sericulture, horticulture, silviculture, poultry, dairy, and fisheries. They play a very important role in the development of rural masses. So there is a need for the balanced development of agriculture and allied sectors.

Agriculture can be expanded as :

A – Activities on the
G – Ground for
R – Raising
I – Intended
C – Crops for
U – Uplifting
L – Livelihood
T – Through the
U – Use of
R – Rechargeable
E – Energies

FARMERS PROTEST

Everything that the Government does these days is hailed as 'historic'. But will the 'historic' farm reforms turn into historic blunders like the earlier protests?

The distrust for the Government is such that farmers are unwilling to accept their assurances at face value. The government has claimed that the opposition have been misleading the nation on farm bills: that its heart bleeds for farmers and our Government will never do away with the Minimum Support Price (MSP) regime. The fact is that the three ordinances, now approved by Parliament without much scrutiny, do not make any mention of doing away with the MSP or procurement of foodgrains by the Government

But farmers, still waiting to see their income double by 2022 as promised by the government, and are demanding MSP to be made into a legal right. It is fine for the government to say that farmers are now free to sell their produce anywhere and at whatever price they like to anyone. But can the Government guarantee that prices will not tumble, that private corporate bodies and traders will not form a cartel and squeeze the farmers? And if the government is so sincere about giving farmers higher prices, why not make it a law that prices for agriculture produce cannot be lower than MSP determined by the Government? Whether it will be concluded or continued till their souls goes off...????

FARMER BILL 2020

CHALLENGES

Agriculture, a major occupation and a Primary source of Income for our country is now slowly vanishing. In order to protect the farmers and enable them to get a fair price for their hard work, The Farm Bill , 2020 is passed. A group of Farmers are agitating against it, as it is not good for them.

.....

PROS

- 1. The farmers had moved towards free and more flexible system.*
- 2. Selling outside the Physical territory of the mandis, will be additional marketing channel for the farmers.*
- 3. The farmer or producer is given the same attention as production.*

CONS

- 1. It hampers with the monopoly of Agricultural Produce Market committee mandis, thereby allowing sale Purchase sale of crop outside.*
- 2. Bill doesn't give any statutory backing to MSP*
- 3. The government declares MSP for crops, but there has been no law mandating its implementation.*

PM - KISAN

SCHEME

08

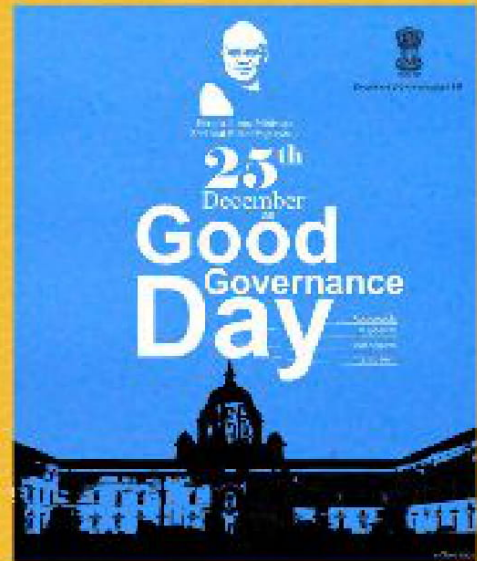

PM Modi releases over Rs 18,000 crore to more than nine crore farmers under PM-KISAN scheme

New Delhi, Dec 25 () Prime Minister Narendra Modi on Friday released over Rs 18,000 crore to more than nine crore farmer families under the 'Pradhan Mantri Kisan Samman Nidhi' (PM-KISAN). With the push of a button, Modi enabled the transfer of money at an event which the ruling BJP has made into a mega exercise to reach out to farmers by having its leaders interact with the farming community at more than 19,000 venues across the country and also listen to the prime minister's address

Did you know?

Modi released the instalment of Rs 2,000 to every farmer on the birth anniversary of former prime minister and BJP Shri Atal Bihari Vajpayee, which is every year celebrated as "Good Governance Day" by the ruling party.

Under the PM-KISAN scheme, a financial benefit of Rs 6,000 per year is provided to small and marginal farmers, payable in three equal instalments of Rs 2,000 each. The fund is transferred directly to the bank accounts of the beneficiaries.

The programme comes amid protests by various farmer unions against three farm laws recently enacted by the Modi government. His government has insisted that these reforms are in the interest of farmers.

Terrace Gardening

The long period of COVID-19 lockdown may have brought most of the activities to a standstill, but it has certainly helped in reviving several terrace gardens in Bengaluru. Some residents have taken to terrace gardening either to beat the boredom or to make the best use of leisure time.

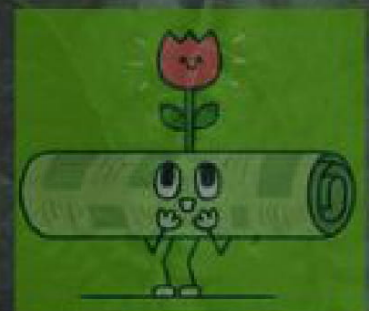

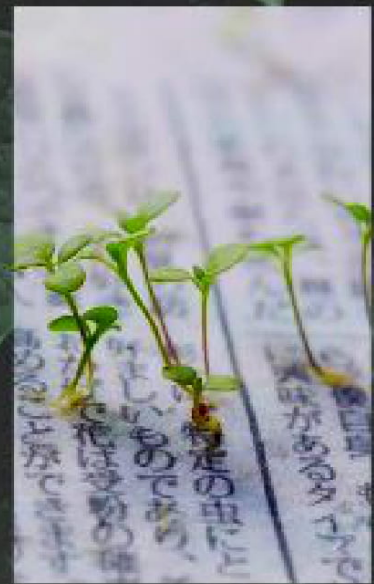

“Thousands of terrace gardens in Bengaluru had been left unattended due to their busy schedule. Now, the lockdown has provided them an opportunity to revive them. According to different estimates reaching us, anywhere from 5,000 to 10,000 of them have been revived so far,” says Dr. C. Aswath, Principal Scientist and head of the Indian Institute of Horticultural Research’s (IIHR) Division of Floriculture and Medicinal Plants. Freshers too are taking to terrace gardening during the lockdown, he adds.

5,000 to 10,000 terrace gardens are estimated to have been revived in Bengaluru during lockdown

GREEN NEWSPAPER

In Japan, one of the most famous national dailies invented one hundred percent sustainable newspaper. If you plant it, it will bloom!

Japan once more demonstrates to be an advanced country. Its latest invention consists in a newspaper made of recycled and vegetable paper that you can plant after you've read it. It is called "Green Newspaper" and was invented by the publisher of the famous Japanese daily, the Mainichi Shimbunsha .

Paper that can be planted is not news. It has been on the market for some years and is a mixture of recycled paper, water and small flowers or herbs seeds (it can also be easily made at home).

DID YOU KNOW?

ONCE YOU'VE FINISHED READING A GREEN NEWSPAPER, DON'T THROW IT, RATHER TEAR IT INTO SMALL PIECES, PLANT AND WATER IT AND WITHIN A FEW WEEKS YOU'LL UNEXPECTEDLY HAVE PLANTS AND FLOWERS.

**REDUCE
REUSE
RECYCLE**

THE IDEA WAS CONCEIVED BY DENTSU INC, ONE OF JAPAN'S LARGEST ADVERTISING AGENCIES, WHICH WORKS WITH "THE MAINICHI".

**USE
WHAT
YOU
HAVE**

THE ECO-FRIENDLY NEWSPAPER HAS HAD A HUGE SUCCESS, A CIRCULATION OF OVER FOUR MILLION COPIES A DAY ACROSS THE COUNTRY AND REVENUES OF ABOUT EIGHTY MILLION YEN, EQUIVALENT TO OVER \$700,000.

THE MIRACLE OF AGRICULTURE

Interview with Ms. Azhagu

Azhagu is a lady from our rural area of Sivaganga, who is one among the souls that are playing an effective role in all our lives, a farmer. She is a national awardee in agriculture and really of a soft and kind character.

1. Whether agriculture is your actual inheritance? Is there any possibility of success?

No, nobody from my side is from agriculture. It is possible for each and every being who is very much dedicated to the profession. It is profitable too and it is the best opportunity for women.

2. How can it be profitable?

It is beneficial for us if we go with government schemes. They really give us an amount that tally

our account and it is very much useful when we adopt government more than private companies. It is always profitable as nothing is going to be wasted here.

3. If it is profitable then why are many farmers yearning for livelihood and protesting against the government?

That is because many of them are unaware of the schemes that are provided by the government and they are afraid of the privatization. They are blaming the whole government as for the effort they got from the part and the natural calamities.

4. What are the problems faced by the farmers during covid-19?

Actually, The real fact is we didn't face any additional problems during this covid situation, because our products are always a demanded item. Even if there is no demand, there will be a need for everyone in the world for food. So, definitely there will be no problem for us. Nowadays consumers can also make a direct deal with the farmers. So nothing can be wasted here.

5. Whether traditional or modern agriculture is easy to go with?

“
**FARMERS FEED
THE WORLD**
”

Modern agriculture is very much easy to go with but it can not exist for a long time, because the traditional method makes everything stronger by consuming a long period but, modern is not like that we can get only a product in short period but its effect will be slow and long lasting.

6. Is every farmer aware of the export potential of our country?

Yes, obviously each and every farmer can get information about these exports but the fact is they are not willing to learn instead blaming others.

7. Any tips for the freshers in agriculture?

There is nothing going to be lost in agriculture. If you double the energies you can double the income. You can harvest the thing that you are sowing.

Agricultural is one of the highly evolving industries in India. It is an industry that continuously requires highly skilled and proficient individuals. With multiple choice in course in the agricultural field today, students in India have a variety of options to pick from. They can opt for a long term course, a short term course or a distance learning course. Also just like other courses a student go for a undergraduate course, postgraduate certificate course or Ph. D. Programs in agriculture. We had list out the college at Tamilnadu

NEW YEAR

2021

FRESH START

OUR KINDA NEW YEAR CELEBRATION

NEW YEAR CHEER

JANUARY, 1, 2021

After spending the day with our family, we decided to spend the evening with these people in the old age home.

Never felt any better occasion than spending time in old age home. Precious Moments :)

Love your parents treat them with love and care, you'll only know their value when you see their empty chair.

ART OF LEADERSHIP

WANT TO BECOME A LEADER ?

What are you busy with today? How about becoming a leader?

Waiting for a hero to take you by the hand and lead you is choosing to remain a victim [or a child]. It is time we grow up and take responsibility for our own life. Each generation has its role models, heroes and leaders. In the past, leaders had to be charismatic, strong and confident. But as time changes we also need to change our conception of what actually is the leadership we need. Maybe we really don't need another hero in today's world.

We were conditioned to believe that a leader is a sort of superman that comes and saves us in times of crisis. As you've noticed it will mostly be a Man that saves the day in such scenarios...

TIPS TO BECOME A LEADER

#1 - Wake up!

It is a childhood illusion that you are hopeless and helpless. It is a childhood illusion that is never you who is powerful. That it is never you who determines, influences and creates. This is a romantic view that allows you to sit in waiting and hope for a better life, a better world at that allows you to sit in waiting and hope for a better life, a better world.

#2 - Change your concept of leadership

We have reached the point when each one of us can and must become a leader. Leadership is about creating space for people to fully express themselves. It is about encouraging people to go beyond their limits. Just like a mother does with her kids. Leadership means INFLUENCE.

#3 - Empower people

Leadership is about empowering people to achieve their life purpose. And remember when you empower people, you will never take away their power. And they will not give it away either. Each action you take comes from a from choice and not because of outside influence or pressure it is time to let go of this constant search for answers outside yourself. The time of Gurus and Masters is over. Surprisingly some of them are transforming into great leaders too.

#4 - Trust your wisdom within

You have enormous wisdom within. It is a matter of making the connection with this inherent wisdom and trusting yourself to do what is right for you at any given time.

#5 - Do it together

It is the time for enlightened friendships, when we all share our wisdom and become both the teacher and the student. This is where our power is in doing it together. This is what leadership is all about!

#6 - Take responsibility

Our planet can no longer afford for humanity to play the victim game. Waiting for a hero to take you by the hand and lead you is choosing to remain a victim or a child. It is time we grow up and take responsibility for our own life.

#7 - Help others become leaders!

Look at your surroundings and notice how many people prefer to stay stuck in their victim role, refusing to recognize, acknowledge and utilize their power. Ask yourself: 'What can I DO to make them see they have a choice, that they have the power?' When you have the answer, act upon it. Once you take that step, you become a leader. A leader creates leaders.

Now go become a leader! The world needs you!
Have a Leadership-Mindset Day!

BITS OF PERSONALITY

There are a lot of little things reveals a lot about your personality like what type of shoes you wear or how often you check your phone or even in your handshake.

1.HOW OFTEN YOU CHECK YOUR PHONE?

Did you know that checking your phone too much might be a sign that you're struggling with mental illness? Yes if you see someone who can't seem to give up their phone, go talk to them and see if they need your help.

2.HOW YOU TREAT YOUR SERVICE STAFF?

Do you treat your waitress or the checkout girl at the grocery store with kindness and patience? Everyone who works in the service industry is there to help you and they shouldn't be mistreated. If you see someone who loses their temper even for a little things, you can notice how they handle stress.

3.WHAT TYPE OF SHOES YOU WEAR?

Comfortable shoes - You're a most agreeable person.

Uncomfortable shoes - calm + internalized pain.

Ankle boots - Aggressive personality

New shoes - Anxious + clingy

4. HOW OFTEN YOU NATURALLY MAKE EYE CONTACT?

People reduce eye contact when discussing something embarrassing or when in deep thoughts. If you make a lot of eye contact with people you're likely more socially dominant and you might have a good confidence in you.

5. YOUR HANDSHAKE

- Firmer handshake - you're more likely to be an extrovert.
- Weaker handshake - Shy and bit neurotic.

6. WHETHER YOU SHOW UP IN TIME OR NOT?

Those who preferred to multitask were commonly late to work, meaning that you're not aware of time in the middle of multitasking. Running late can be indicative that you're a multitasker.

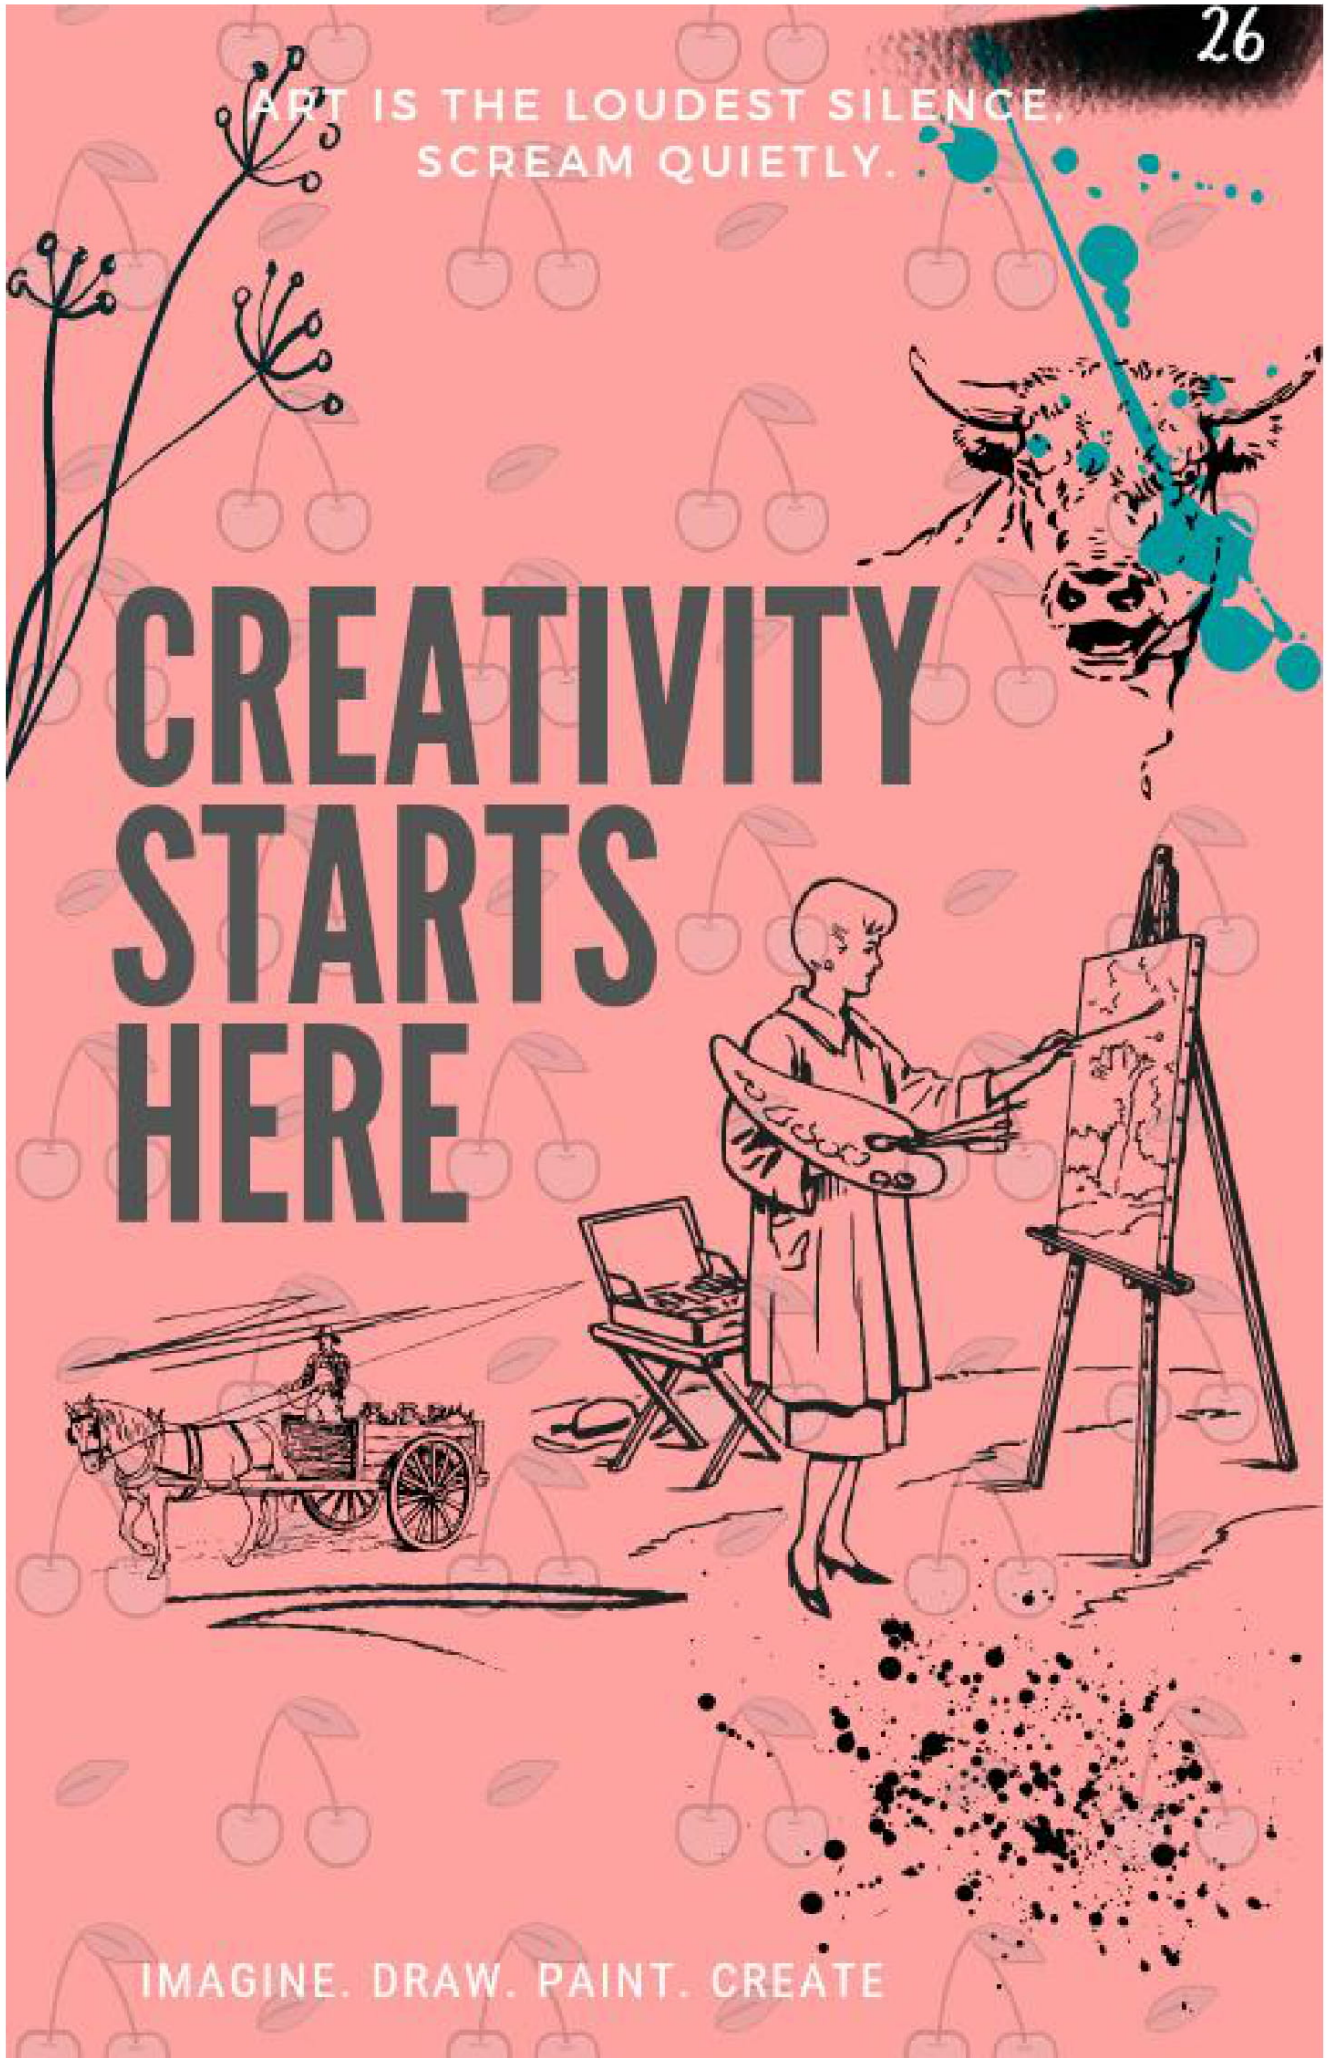

7. WHERE YOU LOOK WHILE DRINKING OUT OF A CUP?

- Looking at the rim of the cup - You trust others easily and can be easily influenced.
- Into the cup - Focused and have an idealistic view of life.
- Closing eyes while drinking - You might be in some sort of pain or discomfort.

ART IS THE LOUDEST SILENCE.
SCREAM QUIETLY.

உழவன்

-சு.அர்வீனா,

|| உயிரிதொழில்நுட்பம்

உடலும் உயிரும் உழவின் மூலமே,
இறைவனின் படைப்பில் இயற்கைக்கே
முதலிடமே,
நீரின்றி அமையாது உலகு என்பது வள்ளுவன்
வாக்கு,
உணவின்றி உயிரில்லை என்பது அறிவார்ந்த
போக்கு,
உழவைக் காப்போம்; உடல் உயிர் வளர்ப்போம்,
தமிழ் என்றால் உழவு; உழவன் என்றால் உயிர்,
உறங்க நேரமின்றி உடுத்த உடையின்றி
உழைக்கும் கடவுள்,
படைப்பது விளைபொருளை நம் வாழ்க்கை அவர்
கையில்,
வாருங்கள் அனைவரும் உழவியல் வாழ்விற்கு,
உழவைக் காப்போம்! உலகைக் காப்போம்!!

விவசாயி

- லி.ரேஷ்மா சப்ரின்,

|| உயிரித்தொழில்நுட்பவியல்.

கட்டுச் சோறு கட்டி ஏர் பிடித்து
நாள்தோறும் உழைத்து
உறங்கும், உறங்கா கண்களோடு
மழைக்காக காத்திருந்து;
விழிப் பூத்திருந்து; அந்த
மழை மண்ணில் விழும் அக்கணம்
எழும் மகிழ்ச்சிக்கு ஈடே இல்லை!
உழவர்களுக்கு அதை
சொல்லி மகிழ வார்த்தையும் இல்லை!
தன்னலம் இன்றி; பொதுநலன் கருதி;
சுயநலம் இன்றி, உழைக்கும்
மாபெரும் மனிதர் விவசாயி!
உணவு இல்லையேல் உயிர் இல்லை
உழவர் இல்லையேல் உலகமே இல்லை!
விவசாயி என்று கர்வதேதோடு
சொல்லடா;
பெருமையோடு தலை நிமிர்ந்து
நில்லடா!

தெம்மாங்கு இசை

தெம்மாங்கு இசை என்பது நாட்டுப்புற இசையின் ஒரு அமைப்பாகும். தேன் போன்ற இனிமை இணை கொண்ட இசை தெம்மாங்கு இசையாகும். மிகவும் நெருங்கிய தொடர்பினை கொண்டுள்ளது. நாகரிகம் வளராத எளிய மக்களால் மிகவும் எளிதாக பாடக்கூடிய வகையில் அமைக்கப்பட்டுள்ள ஒரு இசை உருப்படியாகும். இப் தெம்மாங்கு பாட்டு மனிதனுடைய சமுதாய வாழ்வில் மகிழ்ச்சியையும் மன நிம்மதியையும் தர வல்லதாக திகழ்கின்றது. ஒரு விவசாயி தெம்மாங்கு பாட்டு மூலமாக தன்னுடைய உணர்வுகளை மிகவும் அழகாக வெளிப்படுத்துவன். தெம்மாங்கு பாடல் களைப் பொறுத்த வரையில் "ஏற்றப்பாட்டு", "ஏற்பாட்டு", "நடவுப்பாட்டு", "களையெடுப்பு பாட்டு", "அறுவடை பாட்டு", "அதிரடி பாட்டு", "போராடி பாட்டு" என வகைப்பாடுகள் உள்ளன.

தெம்மாங்கு பாட்டின் கனித்தன்மைகள்:

தெம்மாங்கு பாட்டு பெரும்பாலும் விவசாயி தன் களைப்பினை மறந்து இன்புற்றுப்பாடும் பாடலாகும். தனிப்பாடலாகவும், குழுப்பாடலாகவும் ஒருவர் கேள்வி கேட்பது போன்றும் அதற்கு மற்றொருவர் பதில் கூறும் விதமாகவும் அமைக்கப்பட்டிருக்கும். தனி வழியே நடக்கும் போதும், வண்டி ஓட்டும் போதும், வயல்வெளியில் பணியின் போதும் தெம்மாங்கு பாட்டு எழலாம். தெம்மாங்கு பாடலும் அதன் வடிவமைப்பும் அந்தந்தப் பகுதி மக்களின் மண்ணின் அடிப்படையிலும் தொழில் அடிப்படையிலும் மாறுபடும்.

தெம்மாங்கு இசையின் இன்றைய நிலை:

இன்றைய நவீன உலகில் கணிப்பொறிவிளைவிக்கும் பல நிகழ்ச்சிகளை கண்டு களிக்கிறார்கள். மூளை சம்பந்தப்பட்ட மனம் சம்பந்தப்பட்ட மனிதனுக்கு ஏற்படும் களைப்புகளை இசையை அறவே மறந்து விட்டான். மனிதன் வேலைக்குச் சென்று திரும்பி வந்தவுடன் களைப்பில் போக்குவதற்காக தொலைக்காட்சியில் நிகழ்ச்சிகளைக் காண ஆவலுடன் எதிர்பார்த்திருக்கும் இன்றைய சமுதாயம். நாத்து நடும் வேளையில் நேரம் காலம் பாராமல் உடலும் உள்ளமும் புத்துணர்வோடு இருப்பதற்கு "தன்னானே தானேனானே.....", "ஏலேலோ ஐலசா....." கம்மாடு சுமந்து சோறு கொண்டு போறவளே....." என்ற பாடல்களை எல்லாம் பாடி எல்லோரையும் மகிழ்வித்தது அந்த காலம். விவசாயி என்பவன் இந்த உலகத்திற்கு இறைவன். விவசாயி இல்லையேல் இந்த உலகம் இல்லை. தெம்மாங்கு பாடலினை தெரிந்த நாம் விவசாயிகளின் மத்தியில் தெம்மாங்கு விழிப்புணர்வை ஏற்படுத்த வேண்டும். தெம்மாங்கு பாடல்களின் மூலம் விவசாயம் செழிக்கட்டும் விவசாயிகளின் வாழ்வு மலரட்டும்.

காட்டில் உயிர்களோடு உயிர்களாக

வாழ்ந்த உயிரினம்
 அறிவு முதிர்ச்சி கண்டு
 அற்புதமாய் ஆற்றல் கொண்டு
 உணவு உற்பத்தியை கண்டுகொண்டது
 பக்குவமான இடம் தேடி
 பலபக்கம் அலைந்து திரிந்து
 பாங்கான இடங்களை பக்குவமாய் கண்டுகொண்டது
 பின்னாளில் அது விளைநிலம் என்று அழைக்கப்பட்டது
 விளைநிலங்கள் விளைவிக்க என்பதை மறந்த மனிதன்
 அதை விலை வைத்து விற்க தொடங்கினேன்
 உயிரை வித்து வாழ இடம் வாங்கினான்
 பசுமை காண வேண்டிய இடங்கள்
 பல வண்ணங்களில்
 கான்கிரீட் கட்டிடங்களாக
 வளர்ந்து நிற்கிறது
 பொன்னு விளையிற பூமியை
 பொலி போடாதீர்கள்
 மண்ணை காக்காமல்
 விவசாயத்தை காக்க முடியாது
 முப்போகம் விளைந்த பூமி
 இன்று ஒரு போகம்
 விளையுமா என்று விழித்து நிற்கிறோம்
 மண்ணிற்கும் உயிர் உண்டு
 அதில் நுண்ணுயிர் பெருக்கம் உண்டு
 உப்பைக் கொட்டி உயிரைக்கொன்று
 மண்ணை மலடாக்கி
 மகசூலை தேடாதீர்கள்
 ஆள உழுது ஆறப்போட வேண்டும்
 அப்புறம் தான் அடி உரம் இடவேண்டும் ஆம்
 உரம் இடவேண்டும் உப்பு அல்ல
 தண்ணீர் பாய்ச்சி தொலி அடிக்கவேண்டும் கால் பதிய
 பசுந்தாழை பக்குவமாய் தரவேண்டும் உணவாக
 மக்கம் உரங்களை உணவாக தந்து மங்கையாக போற்ற
 வேண்டும்
 அது விளை நிலம் இல்லை
 மனித வாழ்வியலுக்கு விலை மதிக்க முடியா நிலம்
 அதுதான் நம் விவசாய நிலம்

A minute counsel for youth

*You, Mr. Fair youth
Burn your anger and soothe
Do you want to own the Nation
You have to win the competition.*

*You, being the enthusiasm
Be aware of the chronoclasm
As you're longing to make India new
You have to cope with few*

*Don't be the yearning soul for guru
Instead learn to learn from crew
Life is all about taking risks
Don't just pass it with frisks*
